

Reshape Your Body. Reshape Your Life.

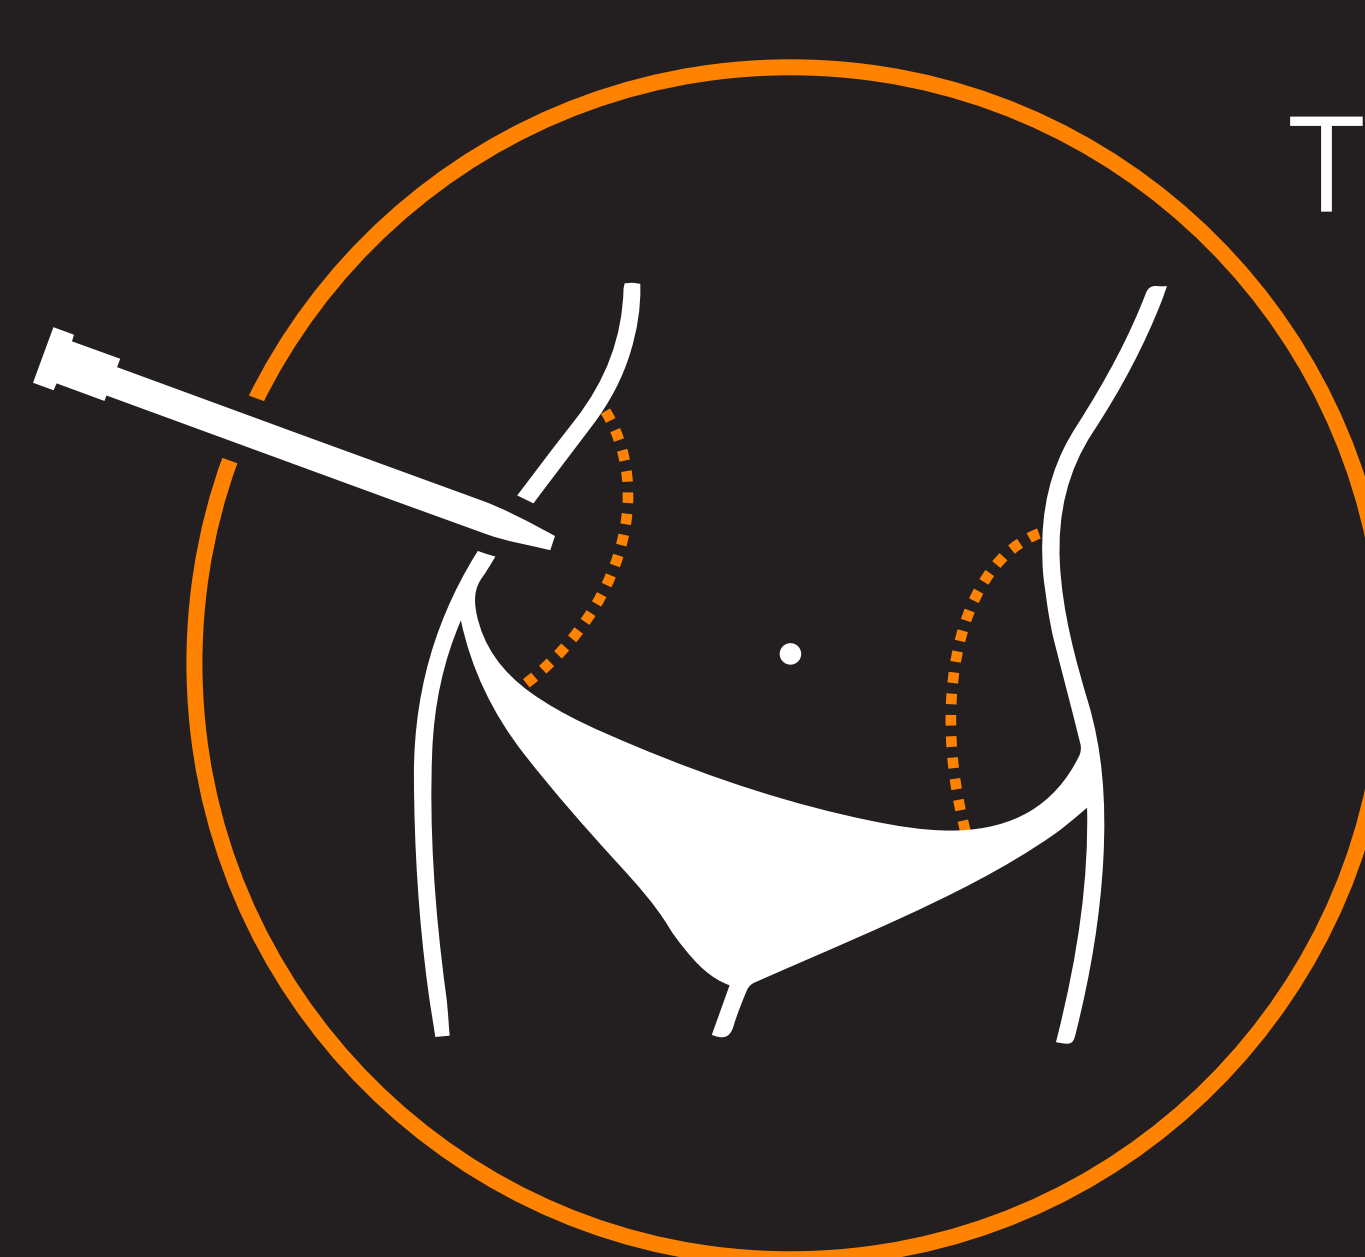

SculpSure®

Smartlipo®

HOW DOES IT WORK?

Laser targets and heats fat cells under the skin without affecting the skin's surface. The damaged fat cells are removed naturally from the body.

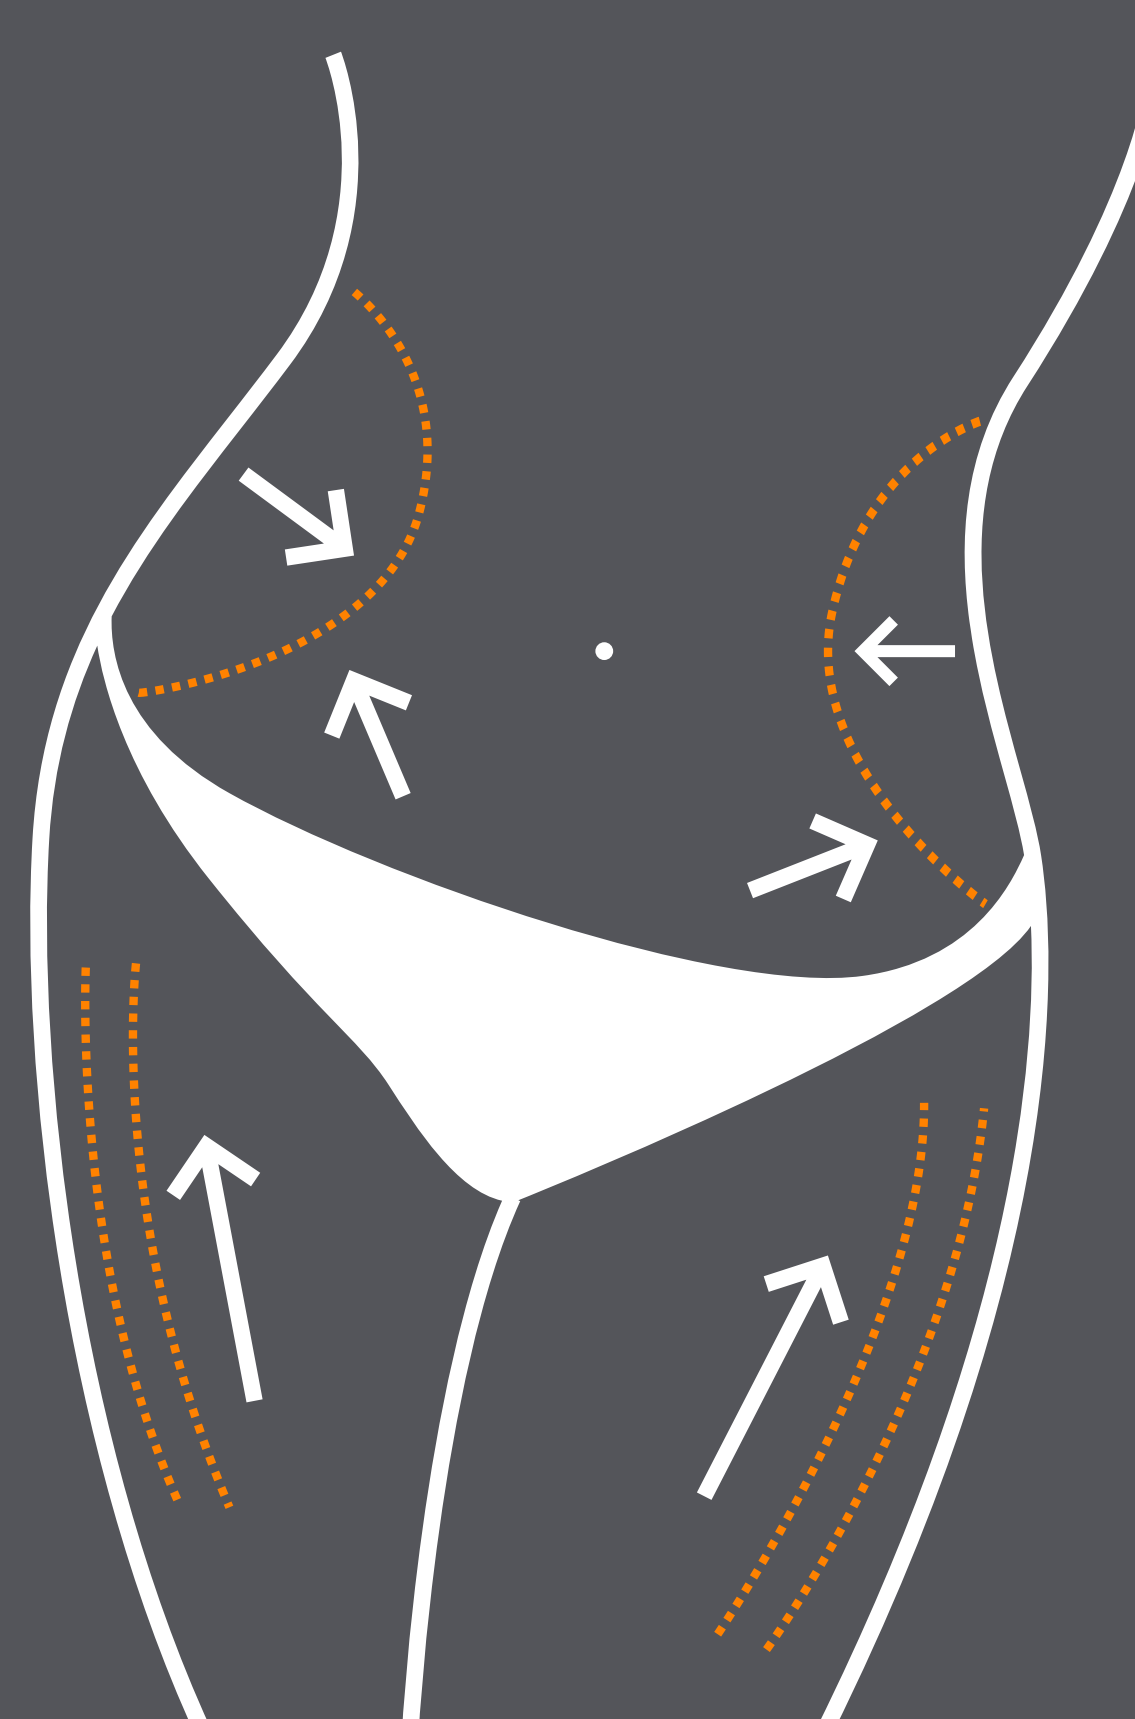

The laser **melts fat**, which is removed with gentle suction, and tightens skin* for a more contoured appearance.

AM I A CANDIDATE FOR TREATMENT?

**BMI OF
30%
OR LESS**

BMI of 30 or less with trouble spots, particularly areas that seem resistant to diet and exercise.

Not significantly overweight but have **accumulated fat deposits** in troublesome areas.

HOW MANY TREATMENTS WILL I NEED?

A **series** of treatments is typically recommended.

For most patients, results are achieved in just **one** Smartlipo treatment.

HOW LONG IS EACH TREATMENT?

Each treatment area is **25 minutes**

The procedure typically lasts **1-2 hours**.

IS THERE DOWNTIME?

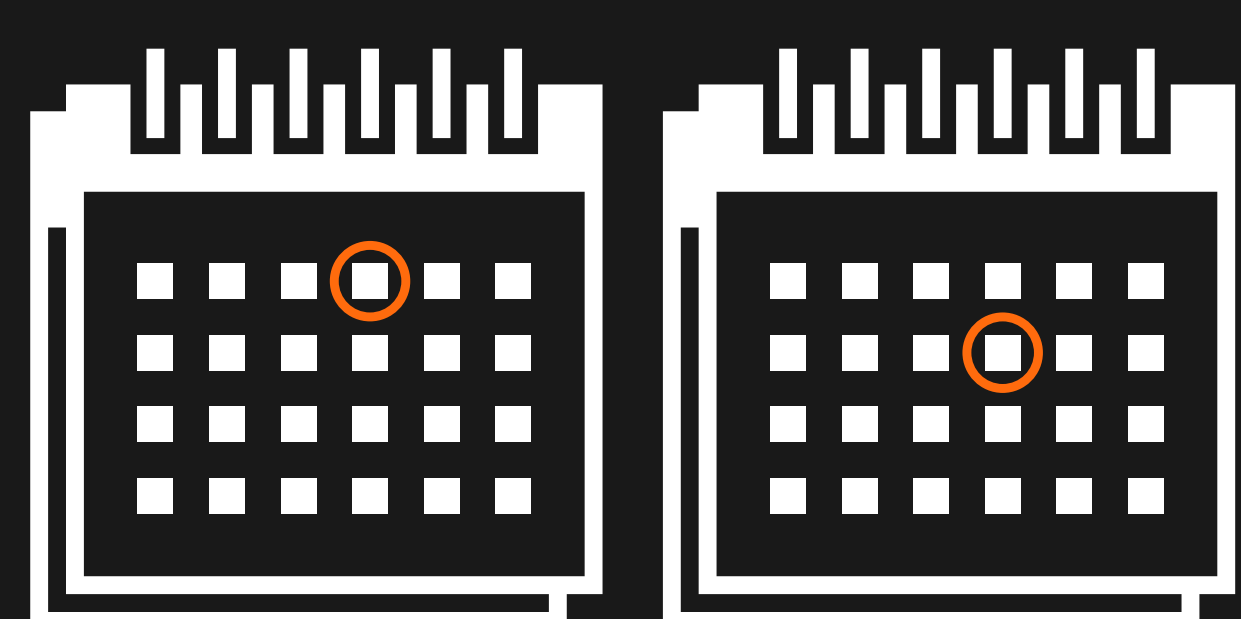

You can resume your daily activities **immediately**.

You will be able to return to normal activities within a **day or two**.

WHEN WILL I SEE RESULTS?

Results can be seen as early as **6 weeks** with optimal results typically seen at **12 weeks**.

Results can be seen within a week, with continued improvement over **3-6 months**.
